ARMA Releases 2021 Q2 Report on Asphalt Roofing Product Shipments

Forest Hill, MD (July 22, 2021) – The Asphalt Roofing Manufacturers Association (ARMA) has released its Quarterly Product Shipment Report for the second quarter of 2021. The report covers asphalt roofing product shipments in the United States and Canada in the second quarter, as well as year-to-date shipment information and a comparison with the prior year’s data.

“The shipment report provides direct insight into the asphalt roofing industry for ARMA members and interested parties,” said ARMA’s Executive Vice President Reed Hitchcock. “It is an invaluable data resource.”

Roofing product shipment data is collected from participating manufacturers by an independent third party, Association Research Inc., and aggregated to create this report. Companies that are not members of ARMA may examine the free quarterly summaries, and those ineligible for ARMA membership can subscribe to the full, detailed report on the [ARMA website](#).
