

ARMA Health, Safety, and Environment Committee

ARMA Health, Safety, and Environment 2019 Committee Discussion

Chair: Devlin Whiteside, Owens Corning
Vice-Chair: Bob Hockman, TAMKO

ARMA Summer HSE Committee Meeting
September 11, 2019

ARMA HSE Committee Update

- Emissions Task Force/Emissions Factors Database
- Cleaner Air Oregon/Oregon Business and Industry
- General HSE Initiatives
- 2019 ARMA Accident Prevention Contest
- New Business

Emissions Task Force/Emissions Factors Database

- Trinity Consultants has substantially completed the Emission Factor report (without formaldehyde)– minor edits underway to complete
- Susan Barnes of Trinity Consultants will be presenting an overview to the committee today

Oregon Business & Industry / Cleaner Air Oregon

- ARMA has continued membership in Oregon Business & Industry (OBI) for another year
- Cleaner Air Oregon (CAO) Rule
 - Oregon Department of Environmental Quality (ODEQ) has begun calling in companies for round 1
 - By all accounts, ODEQ has been having difficulty staffing the effort and it is expected that the audits will likely run over schedule.
 - ARMA member companies will be round 3 respondents – still likely a minimum of 2-3 years away.

ARMA Accident Prevention Contest

Accident Prevention Contest Summary

Please continue to submit data –
another call for data end of
September

General Correspondence

- Staff continues to notify HSE committee members of items that come to light as they are received, some examples:
 - Low-priority TSCA designations
 - Continued Formaldehyde communications
 - EPA's reversal of the once-in always-in designation for major sources survived a challenge in the U.S. Court of Appeal, D.C. Circuit
- Monthly HSE update continues to be provided to HSE committee members

Other Projects

New Business?
