ARMA Releases 2023 Q1 Report on Asphalt Roofing Product Shipments

Forest Hill, MD (April 18, 2023) – The Asphalt Roofing Manufacturers Association (ARMA) has released its first Quarterly Product Shipment Report for the year 2023. The report covers asphalt roofing product shipments in the United States and Canada in the first quarter, as well as year-to-date shipment information and a comparison with the prior year’s data.

“Asphalt roofing data is relevant and meaningful to a number of industries,” said ARMA’s Executive Vice President Reed Hitchcock. “The shipment report provides valuable insight into the asphalt roofing industry to ARMA members, trade professionals and other interested parties.”

Roofing product shipment data is collected from participating manufacturers by an independent third party, Association Research Inc., and aggregated to create this report. Companies that are not members of ARMA may examine the free quarterly summaries, and those ineligible for ARMA membership can subscribe to the full, detailed report on the [ARMA website](#).
